

The Missing Link Security Pty Ltd
ABN 90 164 772 427

31 March 2023

Atlassian Pty Ltd
Level 6, 341 George St
Sydney NSW 2000
AUSTRALIA

To Whom It May Concern,

The Missing Link was engaged by Atlassian to perform a code-assisted web application penetration test of the Jira Product Discovery (JPD) Cloud application. The JPD application is a cloud-based web application that allows Atlassian's customers to prioritise, collaborate on, and evaluate new product ideas.

The objectives of the engagement were to identify exploitable vulnerabilities, subvert standard workflows, gain unauthorised access to the application, sensitive information, or user generated content, and attempt an underlying server compromise.

Manual penetration testing was performed by two security consultants in a staging environment between the 23rd of February and 21st of March 2023 using a white-box methodology, with full access to all source code, development guides, and the assistance of the JPD engineering team.

Sincerely,

The Missing Link Security Pty Ltd
