To Whom It May Concern,

Letter of Assessment

From 13-Feb-2023 to 27-Feb-2023, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a review of Bamboo, which is a continuous integration and deployment tool that ties automated builds, tests and releases together in a single workflow. The scope of work included all currently released features of Bamboo Server and Data Center v9.2.

The engagement commenced with a detailed briefing and walk-through by Atlassian Pty Ltd. The assessment was performed by a team of two consultants over the assessment period following a code-assisted penetration testing methodology and focused on the agent and server components. The engagement was wrapped up with a close-down meeting and a report was issued to Atlassian Pty Ltd.

elttam is an independent information security company providing research-driven security assessment services to leading organisations around the world. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Matt Jones
Director
