

Operating model acceleration for Jira Align

Establish your agile operating model for effective scaled execution

Easily scale agile by establishing an operating model framework that brings together team-level data from across your organization to improve your data-based prioritization. A Jira Align (JA) solutions expert and your internal champions will collaborate to configure your JA platform and processes to create a robust agile at scale foundation. Together, we will create a JA program team, optimize Jira for scalability, implement JA requirements, and define strategies for planning and coordinating activities across multiple teams. This service will equip you with the necessary skills to progress to the next level with the JA Jumpstart service, catering to your organization's scaling requirements.

This service is designed to:

- Clearly define your agile at scale operating framework
- Recommend JA configurations based on your organization's requirements
- Optimize Jira Software setup, projects, and boards for scale
- Equip your teams to support agile at scale expansion across your organization

The service is right for your organization if you:

- Need guided preparation before beginning Jumpstart for JA
- Need to establish and align teams on standard agile at scale processes
- Want to build confidence in your existing agile at scale operating model

Overall expected outcomes

Tailored recommendations leading to:

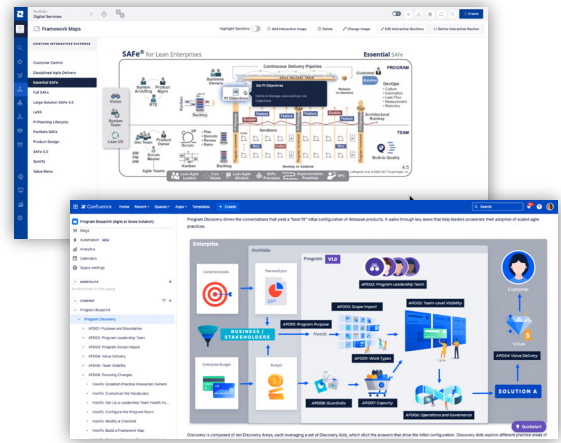

- Confidence in the defined agile at scale operating model
- Improved ability to make data-based prioritization decisions
- Ability to scale agile with consistency, across multiple teams

What to expect

Assessment and strategic recommendations report, including:

- Facilitated workshops by JA solutions experts with leaders and JA program team members to align on roles, terminology, and agile at scale jobs to be done
- Evaluation of current state in Jira Software and recommendations to optimize settings, and boards for the JA program team to implement
- Hands on application to practice team-of-teams planning, backlog prioritization, and creation of JA integration backlog that can be actioned immediately

Maximize your impact

OPERATING MODEL ACCELERATION

To get started, we help you assess and improve your organization's readiness for scaling your agile transformation with Jira Align

Silver Service

PROGRAM EXPANSION
