To Whom It May Concern,

Letter of Assessment

From 04-Oct-2022 to 14-Oct-2022, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a review of the public Atlassian Log4j library fork (log4j-1.2.17-atlassian-16) and its usage within current Confluence Server 7.19.2 LTS and Jira Server 8.20.13 LTS versions. The assessment was carried out by two consultants over the specified period, with the objective of assessing the security of the forked library and its use within the in-scope applications.

The engagement commenced with a detailed briefing and walk-through by Atlassian Pty Ltd. The fork was reviewed from both a static and dynamic analysis perspective, and included both manual and automated test activities to achieve comprehensive coverage. At the conclusion of the assessment, a technical report was created for Atlassian Pty Ltd and a close-down meeting was held to present findings.

elttam is an independent information security company providing research-driven security assessment services to leading organisations around the world. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Matt Jones
Director
