To Whom It May Concern,

### **Letter of Assessment**

From 8th of March to 26th of March 2021 pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a security assessment of an application, which, at the time of acquisition was called Mindville and is now known as Insight.

The engagement commenced with a kick-off meeting to confirm access and project scope and a walk through of the product. The assessment was performed by one consultant over the assessment period following a white-box methodology and using a combination of code review and dynamic testing. The assessment focused on the way the product had been integrated in JSM (Jira Service Manager) and CMBD (Configuration Management Database). The engagement was wrapped up with a close-down meeting and a report was issued to Atlassian.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Nina Rodgers  
Operations Manager
