To Whom It May Concern,

### Letter of Assessment

From 26th October 2020 to 6th November 2020, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a focused white-box review of my.atlassian.com (MAC) and follow-up remediation testing of Hosted Account Management Service (HAMS).

The engagement commenced with a kick-off meeting to confirm access and project scope and a walk through of the product. The assessment was performed by one consultant over the assessment period following a white-box penetration testing methodology of the MAC application. In addition, several fixes from a previous security review of the HAMS product were verified. The engagement was wrapped up with a close-down meeting and a report was issued to Atlassian.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Nina Rodgers  
Operations Manager
