17-May-2023

Atlassian Pty Ltd

AUSTRALIA

To Whom It May Concern,

Letter of Assessment

From 22-Mar-2023 to 27-Apr-2023, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a review of Jira Server and DC, with a primary goal of performing an application security assessment to identify vulnerabilities, weaknesses, and recommendations.

The application security assessment used a code-assisted penetration testing methodology to evaluate the security posture of Jira Server and DC (v9.7.0) and the Android (v0.16.2) and iOS (v0.32.2) mobile applications.

Atlassian has been provided with detailed findings, including recommendations resulting from the assessment. The engagement concluded with a close-down meeting and a report was issued to Atlassian Pty Ltd.

elttam is an independent information security company providing research-driven security assessment services to leading organisations around the world. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Matt Jones
Director
