

10-Jan-2024

Atlassian Pty Ltd

AUSTRALIA

To Whom It May Concern,

Letter of Assessment

From 20-Nov-2023 to to 13-Dec-2023 pursuant to our agreement with Atlassian, elttam conducted a review of the entire Trello web application with a focus on key areas including in-built PowerUp plugins and enterprise features as well as the Trello mobile application for iOS and Android. The assessment prioritised identifying security vulnerabilities that may allow cross-organisation access or leakage of sensitive information across instances.

The engagement commenced with a detailed briefing and walk-through by Atlassian Pty Ltd. The assessment was performed by a team of three consultants over the assessment period following a code-assisted penetration testing methodology incorporating both automated and manual approaches. The focus was specifically on the agent and server components.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Marcela Benetrix
Managing Consultant
