To Whom It May Concern,

Letter of Assessment

From 22nd June 2020 to 10th July 2020, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a white-box review of Global Edge v2.

The engagement commenced with a kick-off meeting to confirm access and project scope with a walk through of the product. The assessment was performed by one consultant over the assessment period. The objective of the assessment was to understand internet and intranet threats and identify vulnerabilities and weaknesses that pose a risk based on the product's threat model. The engagement was wrapped up with a close-down meeting with Jira tickets raised for items that require remediation. The outcome of the assessment was also documented in a Confluence page to feed back to the security team.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Nina Rodgers
Operations Manager
