To Whom It May Concern,

Letter of Assessment

From 15th of March to 30th of March 2021 pursuant to our agreement with Atlassian Pty Ltd, elttam performed an in-depth security review of the latest App Migration Platform which has had a few changes since its last security assessment.

The engagement commenced with a kick-off meeting to confirm access and project scope and a walk-through of the product. The assessment was performed by one consultant over the assessment period following a white-box methodology using a combination of static and dynamic testing. This follow-up assessment included full end-to-end testing of flows and also manual code review of a working, production-like implementation of the App Migration Framework. Weaknesses and best-practice recommendations were lodged as Jira tickets. The engagement was wrapped up with a close-down meeting and a report was issued to Atlassian.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Nina Rodgers
Operations Manager
