

Proving the value of cloud

The following stats and success stories make the case for why more Atlassian customers are making the move to cloud.

Overall stats

95%

of Atlassian customers choose cloud.

80%

of the Fortune 500 have an Atlassian cloud license.

74%

of companies say cloud gives them a competitive advantage.

Security and compliance

94% of businesses say security improved after moving to the cloud.

48% of developers say they don't have time to spend on security issues, making a vendor with a dedicated security team the safer bet.

“

What used to require more than 20 hours of meetings and review now takes minutes. This app solves a huge security pain point that is very prevalent in software development.

Senior Application Security Engineer at [Domino's](#)

Productivity, maintenance, and IT burden

92% of users agreed that Jira automation, which is native on cloud, helped them “spend more time on the tasks which matter most.”

After migration, **60%** of companies say they felt peace of mind around maintaining security and version upgrades*.

“

Frankly, having our engineers or IT professionals manage our systems on-premise is a waste of time and money. If there's a company that already has amazing products, why not have them do it? That way, we can spend our time working on the things that we're good at....

Performance/downtime

42% of IT pros identified network performance as a [primary reason for moving to cloud](#).

96% of surveyed IT organizations said that reliability is as good or better on cloud.*

“

The team is saying really positive things about performance and the experience. Everything is faster on the cloud: logging in, searching, loading pages, API queries, and more. We also hear from the team that the UI/UX of Jira Cloud and Confluence Cloud are much, much better – sleeker, faster, more user friendly. People like to use them more than they did before, which is key.

KENNETH NIELSEN

Senior Program Director, WillowTree

* According to a TechValidate survey of 300+ Atlassian customers.

Cost and value

The average IT professional reports **20%** [savings after moving to the cloud](#).

65% of customers migrated to eliminate the cost of hosting and hardware.*

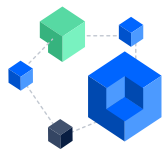

[Invision's](#) IT ticket volumes decreased by **50%** after transferring the service request process to Jira Service Desk and utilizing Jira Software's internal automation controls.

“

Our cost analysis easily showed that we could spend less per year on cloud than server, as well as get more features/integrations and less downtime. It was an easy, no-brainer decision to make the jump.
