

Security Audit Summary

Jira Align

Prepared for: **Atlassian, Inc.**
Prepared by: **John Villamil**
Date: **August 1, 2022**

Executive Summary

Overview

Atlassian engaged Doyensec to perform a security assessment of the Jira Align platform. The project commenced on 04/04/2022 and ended on 04/29/2022 requiring two (2) security researchers. The project consisted of a manual web application security assessment and source code review.

Testing was conducted remotely from Doyensec EMEA and US offices.

Scope

Through meetings with Atlassian, the scope of the project was clearly defined. The agreed upon assets are listed below:

- Jira Align - Application / code
- Jira Align - Exposed APIs
- Jira Align - Infrastructure

The testing took place on a dedicated Jira Align instance available at doyensec.jiraalign.com using the latest version of the software at the time of testing. In addition, access to the source code repositories comprising of in-scope Jira Align components was available throughout the engagement.

About Doyensec

Doyensec was founded in 2017 by John and Luca who are its only stakeholders. The company exists to further the passion and focus of its creators. We aim to provide research-driven application security, enabling trust in our client's products and evolving the resilience of the digital ecosystem.

With offices in the US (San Francisco) and Europe (Warsaw), Doyensec has access to a unique talent pool of security experts capable of providing worldwide consulting services.

We keep a small dedicated client base and expect to develop long term working relationships with the projects and people involved. We will find bugs, but we know that is just the first step in the process. At any stage of your security maturity, you can rely on Doyensec to solve your unique application security needs.

We value and rely on the following principles:

- **Passion.** We believe quality comes from passion and care. We love what we do, and continuously work on mastering our craft. Every engagement is finely executed with dedication and attention to details.
- **Expertise.** Our team has decades of experience in application security. We are industry leaders in penetration testing, reverse engineering, and source code review. Doyensec researchers have discovered numerous vulnerabilities in widely-deployed products, secured fortune 500 enterprises, advised startups and worked with tech companies to eradicate security flaws.
- **Focus.** Security craftsmanship is all about individual attention and delivering tailored security services and products. We concentrate on application security and do fewer things, better.
- **Research.** The fast changing landscape of technologies and security threats requires constant innovation. We are dedicated to providing research-driven application security and therefore invest 25% of our time in building security testing tools, discovering new attack techniques and developing countermeasures.
